## **COMMENTS INVITED ON APPLICATION OF FAST PHONES, INC. TO DISCONTINUE DOMESTIC TELECOMMUNICATIONS SERVICES**

**WC Docket No. 13-25**  
**Comp. Pol. File No. 1077**

**Comments Due: February 12, 2013**

### **Section 214 Application** **Applicant: Fast Phones, Inc.**

On **December 28, 2012**, **Fast Phones, Inc.** (Fast Phones or Applicant), located at **P.O. Box 20877, Montgomery, AL 36120-0877**, filed an application with the Federal Communications Commission (FCC or Commission) requesting authority, under section 214 of the Communications Act of 1934, as amended, 47 U.S.C. § 214, and section 63.71 of the Commission's rules, 47 C.F.R. § 63.71, to discontinue certain domestic telecommunications services in Alabama, Louisiana, Mississippi and North Carolina (collectively Service Areas).

Fast Phones indicates that it currently offers a prepaid wireline service package in the Service Areas that includes resold residential local exchange services and interexchange (domestic long distance) services that it provides using AT&T as its underlying carrier. Fast Phones asserts that, in response to changing market conditions, it has determined that it is no longer feasible to offer its current resold wireline service package in the AT&T territories. Fast Phones therefore proposes to discontinue its prepaid wireline residential local exchange and interexchange services in the Service Areas. Fast Phones specifies that it plans to discontinue services on February 28, 2013, subject to regulatory approval. According to Fast Phones, written notice of the planned discontinuance was sent to affected customers by first-class mail on December 21, 2012. Fast Phones states that the notice to customers provides a toll-free telephone number that customers may call to reach Fast Phones service representatives for assistance with the transition. Fast Phones maintains that the planned discontinuance will not result in harm to affected customers because they are being provided with ample notice of the discontinuance, and equivalent service offerings are available from other carriers. Fast Phones adds that one or more other carriers in each state provide similar prepaid packages and that many more carriers, including the incumbent carrier, AT&T, provide these services on a post-paid basis. Fast Phones represents that it is non-dominant with respect to the services it proposes to discontinue.

In accordance with section 63.71(c) of the Commission's rules, Fast Phones' application will be deemed to be granted automatically on the 31st day after the release date of this public notice, unless the Commission notifies Fast Phones that the grant will not be automatically effective. In its application, Fast Phones indicates that it plans to discontinue prepaid wireline residential local exchange and interexchange services in the Service Areas on February 28, 2013, subject to regulatory approval. Accordingly, pursuant to section 63.71(c) and the terms of Fast Phones' application, absent further Commission action,

Fast Phones may terminate prepaid wireline residential local exchange and interexchange services in the Service Areas on or after **February 28, 2013**, in accordance with Fast Phones' filed representations. The Commission normally will authorize proposed discontinuances of service unless it is shown that customers or other end users would be unable to receive service or a reasonable substitute from another carrier, or that the public convenience and necessity would be otherwise adversely affected.

Comments objecting to this application must be filed with the Commission on or before **February 12, 2013**. Such comments should refer to **WC Docket No. 13-25 and Comp. Pol. File No. 1077**.
